LLD Productions, Inc. has brought you great shows before, and this time we're pulling out all the stops. Here's your chance to get an up close and personal look at the Frazier Quartz Collection. Si and Ann Frazier have been assembling their collection for over 50 years, and it's an amazing collection. Dave Bunk has been working on reviewing the collection and selecting the best of the best to fill the 52 displays cases for you to see. This will probably be your only opportunity to see such a comprehensive exhibit of Quartz in all it's beautiful forms and colors.

---

With over 200 dealers exhibiting, you'll want to get an early start. The wholesale section has been expanded so be prepared to stock up on incredible new items. The Retail section is once again sure to fill everyone's shopping needs with crystals, mineral specimens, fossils, jewelry, copper, gold and everything you can imagine. To say that there is sure to be something for everyone, is clearly an understatement.

Be sure to check the schedule to attend a presentation by one of our guest speakers. These talks are always informational.

Your favorite dealers are sure to be there, so go to our website to view the dealer layout and all who will be in attendance.
