Minerals Posted at John Betts - Fine Minerals

Large update of 55 new minerals were posted at John Betts - Fine Minerals moments ago. This is the advance notification you requested for when new minerals added to my web site.

HIGHLIGHTS OF THE NEW MINERAL POSTED:

FROM MY PRIVATE COLLECTION:

- Famatinite with Tennantite on Pyrite from Quiruvilca Mine, Peru

One of the ten best famatinite specimens found in a one-time find at the Quiruvilca Mine, Peru. It was in my private collection for the last 10 years and is from the collection of Georg Gebhard, who was the co-author of "Die Weltbesten Kristalle von Famatinit und Luzonit," 1998 in Lapis, vol. 23, No. 9, pp. 35-37. The title of the article translates as, "The World's Finest Crystals of Famatinite and Luzonite." This article documents the find and describes the exceptional quality of the Famatinite specimens.
