Subject: * The 2023 Spring Clearance Mineral Sale *

A Brand New Mineral Sale Showroom!

**** Dozens and Dozens of Beautiful Specimens ****

The Annual Springtime Mineral Clearance Sale!

The **Spring Clearance Sale** has long been a tradition of the website to help make room for specimens coming in from the summer shows and Denver. This year it takes on a special importance as I am about as overstocked as I've been in a very long time. I literally have mineral flats pushing out into the hallway outside my office. Great specimens need to find new homes so I can create some space. It is in this spirit that I am opening a new showroom entirely devoted to very fine

mineral specimens at **Half Price Discounts!** There must be close to a hundred specimens in this initial update and more updates will follow in the weeks and months to come. The offering is wide and varied. These are showroom specimens, not low end starter material and the discounts don't get any better. Many are being offered below dealer cost and there is **No Limit**. Dealers looking for inventory are very welcome as well. The Sale will continue until further notice and new items will be introduced to the showroom on future updates.

* **Special Feature** - If you see a specimen on the website that you have interest in that isn't included in the showroom, e-mail me and suggest that it be added to the mineral sale!
