Subject: * The 2023 Spring Clearance Mineral Sale Showroom Update *

The Mineral Clearance Room is Updated!

*** Dozens of Additional Specimens Now Added ***

The Annual Springtime Mineral Clearance Sale!

I have opened a new showroom entirely devoted to very fine mineral specimens at **Half Price Discounts!** There are now well over a hundred specimens in this showroom and more updates will follow in the weeks and months to come. The offering is wide and varied. These are showroom specimens, not low end starter material and the discounts don't get any better. Many are being offered below dealer cost and there is **No Limit**. Dealers looking for inventory are very welcome

as well. The Sale will continue until further notice and new items will be introduced to the showroom on future updates.

Please Note These Special Features!

1. All specimens are offered at half their original prices. However, if you purchase 2 specimens, you'll receive an additional 10% discount. Purchase 3 or more and receive an additional 15% discount! I'm also open to offers on larger orders. Please feel free to take advantage of the discounts.

2. If you see a specimen or specimens on the website that you have an interest in that aren't included in the showroom, e-mail me and suggest that it be added to the mineral sale!
